Recreation is essential to quality of life

UNITY PLAN – Huntsville's Guide to a Sustainable Future

A sustainability plan is being developed for the Town of Huntsville by the community, a multi-stakeholder working group, and Lura Consulting. We are committed to developing a framework outlining how municipal operations and community initiatives can be united in balancing environmental, economic and socio-cultural needs, to enrich the quality of life of present and future generations. Our goal is to involve permanent residents, seasonal residents and visitors in the development of this Plan.

What is the future of Huntsville? By preserving our wonderful, natural setting, creating prosperity through good jobs and a thriving economy, and leading healthy lifestyles – Huntsville will become a foundation for sustainable living! Residents of Huntsville understand that by linking these three features together, we will achieve a sustainable future.

The Plan will provide an umbrella context for the significant work that has been completed to date by building on the Official Plan, our Strategic Plan, and the Community Master Plan, and will fully engage the community in its development.

UNITY PLAN PUBLIC WORKSHOP

Tuesday, March 16, 2010 – 7:00 pm - 9:00 pm
Algonquin Theatre, Huntsville Civic Centre
37 Main Street East, Huntsville
